Aylesford R8 Learning Journey: Core Year 10

Students will also gain an appreciation of how religion, philosophy and ethics form the basis of our culture. They will develop analytical and critical thinking skills, the ability to work with abstract ideas, leadership and research skills.

- What do we mean by philosophical approaches to morality and ethics?
- How do various approaches defines ethical behaviour?
- What can we learn from various ethical case studies?
- What are the strengths and weaknesses of different ethical approaches?

- What are the types of weapons of mass destruction?
- What was the Geneva Convention?
- Why are some people pro war and others are anti-war?
- How do religious people respond to war?

- What are the main causes and effects of environmental destruction and climate change?
- What is the impact of Climate change?
- How does consumerism contribute to environmental destruction?
- How do different religious groups promote environmental care?

Resilience

Respect

- What are the main types and causes of prejudice?
- How can religion support us with views on prejudice and discrimination?
- What can we learn from religious believers who have fought against prejudice?
- How can we show a personal response to prejudice?

- What is meant by 'creation', 'evolution' and the 'Big Bang?'
- How do religions respond to the idea of the Big Bang?
- How does the idea of evolution raise questions about God and creation?

Curiosity

- What are the different views on when life begins?
- What are some Religious views on abortion?
- Why do people have different views on Abortion?
- What is your personal opinion on religious attitudes to early life?

The following topics will be taught on rotation.

Openminded

Studying theology and worldviews gives an insight into Humanity's history and its present, whilst developing key skills such as critical thinking and analytical writing.
