

Year 7 Music Work

Hello all Y7.

Unfortunately we cannot do practical work at the moment. However, I have made you an educationally 'fun' tasks to complete when you are self-isolating this week.

1) If you have a musical instrument at home, you can use the time to play a song of your choice. If you have the internet, you can use YouTube tutorial videos to teach yourself a song. I will ask students to play the song they have chosen during a future lesson.

2) If you don't have a musical instrument, I would like you to design me a new keyboard map. As your topic this term is keyboard skills, and you're all learning about the notes on the keyboard, you can make me a creative keyboard map/picture (just like the laminated ones we have in school). You must make sure the white and black notes are labeled with the correct letters. Here is an image to help you (but don't just print the image).
