Year 9 Music Work

Hello all Y9.

Unfortunately we cannot do practical work at the moment. However, I have made you an educationally 'fun' task to complete when you are self-isolating this week.

I would like you all to reflect on what makes good video game music. Take a listen to the music for this video game:

This is one of my all-time favourite games and the music you're listening to is the actual music for the game.

Game designers must think about the suitability of music based on what the game is about and what the visuals are.

I would like you to draw a picture that best reflects what you think this game is about (what is would look like if you were playing it, etc). If you know the game well, then try to imagine how you would represent this music in a new game.

I look forward to seeing your art work.
